- It was an unfortunate week for Sorare as the 3 National Teams recently onboarded all exited the Euros before the semi-final stage. Fortunately, the players on these teams remain highly desirable, but for the game it would've been a lot more exciting had any of them gone on to win or at least reached the final.
- In a week with very few fixtures, our Sorare vertical added approximately 4.5 ETH of prizes. Whilst this still represents an above average return, our managers are determined to kick-start the next quarter with another 10+ ETH winning haul!
- Manager 2 made another heavyweight acquisition during the weekly Sorare Sunday Power Hour. This time it was France and Manchester United's Paul Pogba who was secured for 39.095 ETH!
- In addition to Pogba all managers continued to pick up cards across each scarcity where value was identified with the goal to re-list for profit as the new European season draws closer.
- AUM now includes Managers ETH balance but requires adjustment for Super Rares and Unique cards bought in bundles from Liverpool, Juventus, Real Madrid, Lazio, AC Milan and Galatasaray. Est ~ 250 ETH
