Card Reward Value = 6.90 Ξ

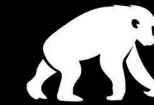

ETH Reward Value = 6.14 Ξ

- This week will be remembered for Argentina (and Messi) being crowned Copa America winners and Italy becoming Euro 2020 Champions at the expense of England.
- Performance wise our managers (well mostly Manager 1!) ignored the fact it was another quiet week and dominated GW 180 to help contribute to a total of approximately 13 ETH of prizes won.
- In the transfer market, all managers continued to trade actively for the recent German, Belgian and French National Team cards.
- The big news this week is that our total AUM now accurately reflects cards bought in bundles. Final formulas are being considered for First Prints, Special Editions, Error Cards and Short Prints, but the main Uniques and Super Rare cards that to date were only attributed a nominal base value are now showing correctly.
