- Sorare continued their recent run of bullish announcements with yet another huge one this week. The signing of the German Bundesliga (D1 + D2). This also included the incredible news that from next season video moments would also be incorporated into the game!
- In the world of football the domestic seasons took a back seat as players represented their countries again and whilst this is less fun for our managers (due to less fixtures and reduced prizes) our vertical made some impressive moves this week.
- Tournament wise, our managers were still able to yield over 10 ETH of prizes and this again should've been more had it not been for extremely bad luck in the card reward pulls.
- Only 1 new Legend was dropped onto the market but it was a huge one and we secured the 1/100 of none other than Dutch Maestro and creator of 'Total Football', Johan Cruyff!
- With a quieter week for tournaments our managers were very active and over 100 cards were bought and sold as managers looked to tidy and strengthen their galleries.
